

HANDHELD UV ANALYZER LTGEL8-3

HANDHELD UV ANALYZER LTGEL8-3

Used in Forensic, molecular biology, genetics, microbiology labs, gel electrophoresis instruments.

LTGEL8-3 HANDHELD UV ANALYZER

Compact designed, simple operation, one-key switch the wavelength.

With a battery, can be used for a long time without electricity.

Optional H-type stand fix the UV analyzer to meet special operational needs.

H-type stand for optional to fix the instrument, meet the demand of special operations. It can adjust height and angle.

SPECIFICATIONS

Model	LTGEL8-3
Wavelength	Dual 365 nm, Dual 254 nm or 254 nm combine with 365 nm
Voltage	DC 12.6 V
Power	≤ 6 W
Dimensions(LxWxH)	75x440x51
Net Weight	0.7 kg
